### **Business Source Corporate**

The world's largest, English-language, full text, periodical, business database provides corporations with nearly 2,800 quality magazines and journals, offering invaluable information on virtually every aspect of business. Areas covered include human resources, sales & marketing, finance, public relations, executive management, information management, manufacturing, and more. This database is updated on a daily basis.

[Title List](#) [More Information](#)

**Enhanced Business Searching Interface**

### **Regional Business News**

This database provides comprehensive full text coverage for regional business publications. Regional Business News incorporates coverage of 75 business journals, newspapers and newswires from all metropolitan and rural areas within the United States. This database is updated on a daily basis.

[Title List](#) [More Information](#)

### **Knight Ridder Collection**

The Knight Ridder collection includes a 90-day archive of approximately 100 newspapers from the Knight Ridder wire service. The data is updated daily.

[Title List](#) [More Information](#)

### **Academic Search Premier**

The world's largest academic multi-disciplinary database, *Academic Search Premier* provides full text for nearly 4,650 serials, including full text for more than 3,600 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles. This database is updated on a daily basis via EBSCOhost.

[Title List](#) [More Information](#)

### **Computer Science Index**

*Computer Science Index* offers abstracting and indexing of academic journals, professional publications, and other reference sources at the highest scholarly and technical levels of computer science. The collection covers more than 6,500 periodicals and books, with coverage going back to the mid 1960s.

[More Information](#)

### **Computer Source**

*Computer Source* provides researchers with the latest information and current trends in high technology. This database offers full text for nearly 300 publications and indexing and abstracts for nearly 450 publications.

[Title List](#) [More Information](#)

### **Internet and Personal Computing Abstracts**

*Internet and Personal Computing Abstracts* (formerly *Microcomputer Abstracts*) provides abstracts and indexing for literature related to personal computing products and developments in business, the Internet, the home, and all other applied areas. Over 400 of the most important trade publications, mainstream computer magazines, and professional journals are covered, including those that focus on specific topics

such as Macintosh and Windows platforms, programming, web development and more.

 [Title List](#)  [More Information](#)

**Information Science & Technology Abstracts (ISTA)**

*Information Science & Technology Abstracts* is a leading database in the areas of information science. ISTA indexes journal articles from more than 450 publications plus books, research reports, and conference proceedings and patents, with ongoing comprehensive coverage of the most important periodicals in this field. Coverage dates back to the mid 1960s.
